

SPECTRUM MANAGEMENT AUTHORITY (SMA) OF JAMAICA TYPE APPROVED EQUIPMENT LABELLING REQUIREMENT

Upon receipt of an application for type approval, the Spectrum Management Authority (SMA) will issue a Type Approval Certificate with a Type Approval ID number if a device satisfies our requirements. (See <http://www.sma.gov.jm/licensing/certification/other/type-approval>).

Thereafter, manufacturers seeking to export type approved devices to Jamaica should label the documentation as set out below to avoid delays and/or seizure of equipment by Customs Officers.

For stand-alone devices such as Keyless remotes, cellphones etc:

“This product has been Type Approved by Jamaica: SMA – “Equipment Identifier”.

Or in the case where an approved wireless module is contained within a device such as a computer, printer etc.:

“This product contains a Type Approved Module by Jamaica: SMA – “Equipment Identifier”.
